**Berlin Institute  
for International  
Business Studies**

The Berlin Institute for International Business Studies (BIIBS) was established in 2015 at the Berlin School of Economics and Law. The Institute is committed to the study of international business and management matters with a focus on delivering high quality research output. BIIBS in particular aims at stimulating exchange and research collaboration in and across academic disciplines in order to promote new and significant research results.

The paper development workshop is designed to connect scholars of the wider Berlin area to like-minded peers and to offer valuable feedback on academic papers in the pipeline. The workshop in particular aims to provide a forum for younger scholars including advanced PhD students.

## Aims and background of the workshop

Given the broad scope of expertise of BIIBS the call is open to a range of IB/IM matters including but not restricted to Strategy, Organization, Management, Finance and Accounting.

In order to create an interactive forum, accepted papers will be presented and discussed in thematic subgroups. Each paper will receive in-depth comments by two senior fellows either from BIIBS or from outside faculty.

## Workshop program

- The workshop starts on January 18, at 12:00 with a joint welcome lunch
- We schedule 3 sessions of 90 minutes with 45 minutes for each paper
- 15 minutes presentation
- 2 x 10 minutes comments by discussants
- 10 minutes group discussion
- If needed parallel sessions will be offered
- The workshop closes at 18:30 with a farewell reception

There is no fee for the workshop, but participants have to cover their travel and accommodation expenses themselves.

## Submission process
